OVERVIEW

Looking for Dynamic Roles in Technical and Managerial Spheres with Opportunities to Learn and Grow.

EDUCATION

Bachelors in Technology Computer Science

Symbiosis Institute of Technology, Pune, India *Jun 2018 - 2021*

High School Diploma in Computer Science

SVCP Sinhadgad Institutes, Pune, India *May 2018*

EXPERIENCE

1. Developer

FNH Group *Jun 2023 - Present*

1. Developed **Dropit Kw App**, Hands Free Shopping App serverless with latest technologies(Firebase & Flutter)
2. Redesigned [Mirzaam.com](https://www.mirzaam.com) expo website (Mirzaam Expo Kuwait's Biggest Interior Design Expo at KIF HALL 5,6,7)
3. Continous improvements on shopify webiste ([Farah-home.com](https://www.farah-home.com))
4. **Mirzaam App** - Exhibition Information App in Kuwait, With Best Booth and Raffle draw system

2. Information Technology Analyst & Development

Smart Health Co. For Medical Equipment & Supplies *Mar 2021 - Jun 2023*

Tasks:-

- Spearheaded the development of the company's digital appearance.
- Developed Ecommerce Skin care App(ClinicaShop) & Website for the company on both iOS and Android platforms, utilizing Laravel technology as backend.
- Successfully launched a website for our exclusive brand - "Yellow Rose Arabia"on Shopify and implementing effective SEO and SEM strategies.
- Implemented and enabled cloud solutions for the company team, selecting the appropriate solutions, configuring and integrating them with existing systems.
- Managed Zoho CRM tasks, configuring and customizing the system, integrating it with other systems, and training the team on its effective use.

SKILLS

Strong decision maker ● ● ● ● ●
Complex problem solver ● ● ● ● ●
Website Designing (UI/UX, Custom, Frameworks) ● ● ● ● ●
Flutter and Dart ● ● ● ● ●

Digital Marketing (Social Media, Email) ● ● ● ● ●
IT support ● ● ● ● ○
SEO (english & arabic) ● ● ● ○ ○
Cloud Solutions ● ● ● ○ ○

PERSONAL PROJECTS

1. Flutter Learn & Develop

Android and IOS Projects *Present*

- Meals App, Ecommerce Shop App, Travel Info App, Social Media Chat App(Firebase).
- Adding Google Maps, Using native device features like the camera, Adding beautiful animations & page transitions, Image Upload, Push Notifications - manual approach and automated.

2. Final Year Bachelor's Project: AI Intrusion Detection System

Created a model with Applying Advanced ML algorithms With Explainable AI on IDS dataset (CICIDS18).

3. Published Research paper

<https://www.mdpi.com/2079-9292/11/19/3079>

SUMMARY - In this published paper, we developed a machine learning-based intrusion detection system (IDS) using advanced ML algorithms with Explainable AI techniques on the CICIDS18 dataset. The goal of the project was to detect and prevent cyber attacks by exploring various machine learning techniques for intrusion detection.

Using advanced ML algorithms such as Random Forest, K-Nearest Neighbors, and Gradient Boosting, I developed a model that was able to accurately detect and classify different types of cyber attacks. To ensure transparency and ease of interpretation, I used Explainable AI techniques to provide insight into the model's decision-making process.

Overall, this project contributed to the ongoing efforts to prevent cyber attacks and protect sensitive data.

CERTIFICATIONS

Flutter & Dart - The Complete Guide [2021 Edition]

(06/2020 - Present)

A Complete Guide to the Flutter SDK & Flutter Framework for building native iOS and Android apps
